## ABOUT US

ROMA TRANSPORT SERVICES (QLD) PTY LTD is a family owned company specialising in providing quality transport services for the Oil and Gas Industry. Our business has been built from the ground up to be the strong and versatile company it is today.

Established in 1992, Charlie Burke and Ian Forbes started with a truck each and a vision to be their customers preferred supplier of quality transport within the Oil and Gas Industry and are still involved in the company today.

Our company continues to provide a top class service with an expanding fleet of now more than 40 prime movers, 250 registered vehicles and a wide variety of plant and equipment available for hire.

Although we predominately specialise in transportation within the Oil and Gas Industry, we also have the expertise to provide transportation and crane services for wide and/or heavy loads, dangerous goods, construction and mass fleet operations.

We at RTS believe success is built on a foundation of providing quality services and establishing solid working relationships with each of our customers. Customer satisfaction is important to us and we strive to deliver consistent quality customer service of the highest level.

We have the most extensive and versatile range of fleet equipment based and located in the Surat Basin, which means we are equipped to cover and oversee all client requirements. Our company can deal with a vast range of client requests ranging from an overnight 'hot shot' of a small parcel, road train transportation, potable water, moving entire camps and drilling rigs plus so much more.

We measure our success by our client's satisfaction or the success of our project outcomes. We strive to be flexible in our daily movements and management style to provide our clients with options that deliver cost savings, stability, trust and long term strong working relationships that ultimately provide positive outcomes.

Our fleet continually evolves to meet operational and industry demands to ensure we are equipped with the best suited equipment to perform the job at hand within the ever changing industry environments and legislative requirements.

At RTS, we excel in managing complex day to day operations, varying job aspects, increasing workforce and client commitments by drawing on our extensive industry and local knowledge to source and provide optimum solutions for our clients.

## SERVICES

Ensuring a solid formation of communication is built with our clients from day one, allows RTS to be well informed and prepared for the days and months ahead.

Our 'One Stop Shop' approach means we can provide all services from the start, through to the end of each job. This aims at providing a smooth and positive client experience and also minimises the risk of workplace incidents as our staff are trained and prepared for each task.

Our services are complimented by our 24 hour on call availability and we specialise in coordinating hot shot services of all sizes. We can arrange hot shots in the size of a utility up to a road train, with little to no notice to ensure minimal down time and disruption to our customers operations.

We believe our services are only as reliable as the equipment we have. Our fleet of prime movers (mostly Kenworth's) are maintained regularly and operated by qualified drivers. We invest in modern custom built equipment specifically designed for our operations. By adopting this approach when expanding and improving our fleet, we can offer our clients a more efficient and economical service.

Roma Transport Services provides the following services (please note this list is not exhaustive):

Oil and Gas Field Haulage

General Haulage

Heavy Haulage

Water Cartage (Potable and Regulated)

Container Movements (20' and 40')

Dangerous Goods

Wide range of Rental Equipment

Crane Hire

Winch Trucks

Super Tilts

Side Loaders

## EQUIPMENT

Our inventory of plant and equipment continually evolves to meet our operational needs and is constantly being updated. We offer prime movers, trailers, side loaders, super tilts, dollies, body trucks, light vehicles, wheel loaders, cranes and tilt trays, just to name a few. Our equipment is maintained and serviced to a high standard to ensure all safety and quality compliances are met.

Our company is proactive about purchasing custom built machinery to enable us to perform our daily operations effectively.

We specialise in providing customised service packages to meet our client needs and requirements. Our packages ensure our clients have access to the equipment necessary for their operations with the added value of competitive pricing.

A full and current inventory of our plant and equipment can be found on our website at [www.romatransport.net.au](http://www.romatransport.net.au).

## SPECIALISED CAPABILITIES

We have been and continue to be a Truck Safe Accredited Company since 1999 and joined the National Heavy Vehicle Accreditation Scheme under Maintenance Management in October 2000. All of our drivers operate under Basic Fatigue Management practices and are fully trained in the latest load restraint procedures to ensure compliance with the NTC guidelines for load restraint.

Customer confidence is a priority to us. To meet customer objectives and expectations, RTS and our customers are jointly involved in a continuous improvement process. Our promise to you is that we will do all within our power to provide you the safest, most efficient and cost effective service possible whilst on the job.

We strive to establish and maintain open communication along with strong and reliable relationships with our clients to ensure all operations are undertaken with full expectations and deliverables communicated between parties. We work in close collaboration with our clients to allow us to plan and execute each job to a high standard.

At RTS, we value and place great emphasis on the contribution of our employees and recognise that through their input and dedication, our company will continue to supply superior service and succeed in our customer satisfaction.

At RTS, we pride ourselves in providing safe and reliable operations Australia wide. We are experienced and equipped in working remotely in all situations to ensure our distant clients receive the same quality service as our local customers. Our experienced employees are equipped to manage and provide the expertise and know how to get the job done.

We are continually updating our fleet and operational systems with the latest technology to ensure our local and remote operations run seamlessly and are effectively executed to ensure customer satisfaction in terms of their investment of time and money.

We pride ourselves in obtaining and retaining contracts over long term periods and tribute this to the our strong emphasis on client relations and dependable industry experience.

Our quality targets are aimed at delivering the highest level of service within the industry. We acknowledge that our customers decide our future by placing confidence in us by awarding us new and permanent projects, contracts and business opportunities. It is vital to continually improve our processes and to maintain harmonious working relationships with our clients and suppliers.

Our diverse fleet and trained workforce enables us to perform anywhere during times of peak activity and also at short notice.

We can cater packages to meet your company requirements on all small or large scale operations.

# TRAINING & SKILLS

RTS holds many in-house, client requested and national accreditations and qualifications. Our company actively participates in continuous quality improvement exercises and reviews.

We see ourselves as a progressive company and are proud of our excellent environmental and safety record. We invest in our workforce by providing employees with necessary certifications and training to ensure they are optimally equipped to do the job and seek other opportunities to up-skill our staff. Our in-house Workplace Health and Safety Officer engages our workforce in mandatory training, safe work practice training and certification renewals.

Our company prides itself in ensuring all RTS staff are quality trained. This means when you engage our services you can be rest assured that our staff are trained to perform and succeed.

## PERFORMANCE

RTS has an excellent and established standing within the Oil and Gas community and we are a preferred supplier to a number of large industry clients including Santos, Agility, Schlumberger, Halliburton, Ensign, MPC Kinetic, Savanna, Queensland Rail and the Maranoa Regional Council.

We have at all times fulfilled our contractual obligations to the satisfaction of our many clients.

We are a company that have been recognised for our commitment to the health and safety of our employees, clients and workplace visitors. Our procedures and operations are heavily audited on a regular basis by external bodies. We are proud to be classed as a Tier 1 company and we continue to strive, maintain and build on this standard.

## SAFETY

We are committed to ensuring a safe and healthy environment for all individuals (such as staff visitors, contractors and other personnel) through the prevention of injury or ill-health. Safety is of the utmost importance to us during the operation of our activities. We are dedicated to ensuring that all legislative requirements are adhered to and a position of excellence is regularly maintained through a systematic and preventative approach in handling workplace health, safety and welfare issues affecting its activities.

An employee's safety is a top priority to us and this is reflected within the company's environmental health and safety standards of which the core values are derived from strategic goals outlined within the current company Workplace Health and Safety Strategic Plan.

At RTS we believe in:

- Ethics and accountability
- Innovation and creativity
- Excellence and quality in all endeavours
- Equity of access and inclusiveness
- Participatory decision making

We conform to all legislative requirements in relation to our operations and performance. We acquire and maintain the necessary competencies and accreditations required by us to perform our day to day operations and dealings with others. Our quality management and risk assessment systems are regularly reviewed and updated to reflect the high level of service we strive for at RTS.

# INDUSTRY COMMITTED

We continually work towards integrating and updating our systems with technology which helps us improve our service level for the services that we offer.

We are an established and active company within the Oil and Gas industry. Spanning over 25 years we have formed many valuable and reliable relationships across all government and private enterprises and with other industry alike transport companies.

We have the means and expertise to work closely with our clients to provide tailored services specific to each job at hand.

We pride ourselves in being members of industry groups and participate in industry discussions and networking events.

At RTS, we believe our clients are our most valuable asset and take pride and considerable value in investing in them also.

## OUR COMMUNITY

Roma Transport Services is a proud local supporter and we see great value in investing in our local community and local people.

We adopt a "local first" attitude when recruiting to our workforce and ensure our employees are provided and supported in an equal opportunity workplace.

Our company shops locally wherever possible to support our local business community. This includes purchasing fuel and oils, workwear and uniforms, tradesmen services, tyres, tools and so much more.

We are immensely proud to support over 30 local clubs and committees along with assisting the local community events in our region. Our community sponsorship varies between a mixture of financial support and in-kind support where we utilise our vast fleet of plant and equipment as well as our trained staff to provide the labour to assist our community in getting the job done.
