PEDESTRIAN AND VEHICLE MOVEMENT POLICY

Commitment

ROMA TRANSPORT AND CRANE SERVICES is committed to providing a safe work environment that is free from injury or incident for all employees, contractors and visitors. Due to the nature of the work being carried out by ROMA TRANSPORT AND CRANE SERVICES this Policy has been implemented to ensure the safety of all persons whilst they are on ROMA TRANSPORT AND CRANE SERVICES premises.

Policy

It is the Policy of ROMA TRANSPORT AND CRANE SERVICES that pedestrians will give way to vehicles, e.g. forklifts and prime movers at all times. Due to the size and the working height of some of the forklifts, the driver's line of site is restricted and the driver may therefore be unable to see pedestrians when moving.

Pedestrians:

Specific pedestrian walkways have been marked and shall be adhered to at all times. If for any reason, a person requires access to areas outside of the designated walkways they should access these areas in a prompt manner and ensure they give way to all vehicles at all times.

Employees, contractors or visitors working and moving in areas accessed by vehicles, including forklifts, must wear appropriate personal protective clothing, for example high visibility vests, at all times.

Vehicles:

All machinery and truck drivers are to be aware of pedestrians that may be present in the direct work environment and to remain cautious at all times. They are to conduct daily forklift checks to ensure that warning devices are in working order, and if not to report them to their immediate supervisor. Machinery drivers are not to exceed the speed limit of 10km/hr and are to be cautious when entering and exiting the workplace to ensure pedestrians are alerted to the presence of a moving vehicle.

****Non-compliance with the requirements of this Policy will result in disciplinary action****
